

LAUREN NOWAK

AI SYSTEMS STRATEGY | EMERGING TECHNOLOGY | WORKFLOW AUTOMATION

Strategy-minded systems thinker applying frontier AI tools to reshape knowledge work and operational infrastructure. Experience at Block building AI-assisted automation and internal experimentation tools inside large-scale product environments.

SKILLS

Strategic: AI Integration | Cross-Functional Strategy | Workflow Automation | Systems Thinking

AI Development: Claude Code | Anthropic API | Multi-Agent Orchestration | Prompt Engineering | MCP Integration

AI Tools: Claude | ChatGPT | Gemini | Notion AI | Goose | Perplexity

Technical: Data Analysis (GA, Tableau) | HTML/CSS | Asana

RECOGNITION

- Quoted in OpenAI's article on "Improvements to Data Analysis in ChatGPT," contributing insights on how AI makes data analysis more accessible for professionals.
- Built and deployed laurennowak.ai using Claude Code, managing full site architecture, design, and deployment independently.
- Publish weekly AI education content on LinkedIn covering AI terms, papers, and tools.

AI PROTOTYPES

MULTI-AGENT MARKETING ORCHESTRATOR

- Designed a four-agent pipeline (research, strategy, campaign, content) with human-in-the-loop review that converts a marketing objective into a complete brief in under two minutes.

MARKETING OPS AUDIT

- Engineered an AI tool that converts plain-language marketing stack descriptions into stakeholder-ready risk reports. Surfaces single points of failure, undocumented dependencies, and ranked automation opportunities with a 1-10 risk score and one-click export.

BRAND CHECK

- Developed an AI compliance auditor that reads brand guidelines and audits marketing content in under one minute. Flags compliance risks, voice drift, and prohibited claims with pass/warning/fail scoring and one-click export.

EXPERIENCE

BLOCK

CASH APP — *MARKETING STRATEGY & SYSTEMS LEAD* | 5/25-PRESENT

- Leveraged Goose with MCP extensions to streamline campaign planning and improve marketing operational systems, enabling faster execution and more consistent cross-functional decision-making.
- Established structured planning frameworks aligning messaging, audience strategy, and channel execution, improving cross-functional coordination across Product Marketing, Creative, and Marketing Operations teams.

CASH APP — *PRODUCT GROWTH & CRM STRATEGY* | 2/24-5/25

- Launched an internal AI experimentation hub in Notion featuring tool demos, real-world use cases, and resources to drive AI adoption and workflow automation across marketing teams.
- Created AI-driven tools that reduce manual work by 10–20 hours per week across the team.
- Drove +94% QoQ increase in app installs and delivered \$40M in incremental GPV in December 2024 (4x YoY) through lifecycle and promotional campaign optimization.

AFTERPAY — *CUSTOMER GROWTH & ENGAGEMENT STRATEGY* | 8/23-2/24

- Selected for the AI Pod to define enablement roadmaps, and pilot agentic workflows across Commerce Marketing, translating emerging AI capabilities into practical business applications for non-technical stakeholders.
- Led email and push strategy contributing \$59.3M in GPV during H2; Cyber Week campaigns drove 24% YoY growth in active users and \$9.5M incremental revenue, the highest performing in program history.

AFTERPAY — *CHANNEL MARKETING SPECIALIST (CRM & CUSTOMER COMMUNICATIONS)* | 2/22-8/23

- Standardized global channel best practices facilitated Afterpay's CRM migration across all regions and received the Marvelous Mint Award within 90 days of hire.
